

We 'bout 30 minutes north of our city block
My God mom had two, my mom had one
I was her only one

Ma pearl had two - we were all best friends
We would fight downstairs, it was cold down there
They just moved out there, it was more of us out there

Shit might go down, but it's still countryside
A lil more peace and quiet
'Couple folks scared we'll bring the violence
But really our folks just wanted to try again

Amethyst, came from the amethyst
This SM7 shit
Purple just like my lips, oh
This a sole occasion, it was carved into stone
Had to wake up wake up, it's the first of the month
Ooh
'95
It was hella live
Had the twin towers
Everything overly televised
