

Forgetter

Jordana

Just wishing, I'm just wishing
That the time I spent could mean something to you
It's all I'm needing, I just need you
To be with me a minute, can you give me
Just a sec with you baby
Can I know just what you're thinking baby
It just feels like nothing's real with you lately
Nothing's okay unless you tell me baby

I just wanted to believe
That you'd really wanna be here with me

I just wanna feel better
I want all of these thoughts just to mellow out
You know I'm a forgetter
Didn't even remember the letter you wrote me

Just needed, I just needed to get
High for a moment, I just needed to get
Lost for a moment, I just wanted to leave
(To leave, To leave)
Just wishing, I'm just wishing that the
Time I spent could mean something to you it's
All I'm needing, I just needed to be
With you a minute (a minute)

I just want to believe
I can't tell if this is all, all a dream

I just wanna feel better
I want all of these thoughts just to mellow out
You know I'm a forgetter
Didn't even remember the letter you wrote me

How, how high could I get, will I get
How, how high could I get, will I get
How, how high could I get, will I get
How, how high could I get, will I get
