

# Hands Over My Head

Jordana

Treat me how you want  
Just know that  
I won't be here for long  
Find out I am worthy and enough  
Held up by the scruff  
Wary of the jump

Dependency  
Is a treacherous thing  
Grappled by the tail  
Humor in a flail  
Well it's not funny anymore  
It hurts, hurts, hurts and I'm done, done, done

Treat me how you want  
Just know that  
I won't be here for long  
Find out I am worthy and enough  
Held up by the scruff  
Wary of the jump

Don't speak to me that way  
Give it to me straight  
Finish up the job  
Sure, I miss the dancing around with you  
But why's it have to be right now?  
Just say we're done, done, done

Done  
Done

Treat me how you want  
Just know that  
I won't be here for long  
Find out I am worthy and enough  
Held up by the scruff  
Wary of the jump

Done
