

## Jackie's 15

Jordana

She didn't know commitment would be so much pressure  
At the start  
Jumped in all ingenuous  
Oh, what's gone through your mind, sweetheart?

Was it somethin' that some kid had said that set you on?  
Maybe you'll find love's not that simple  
Showing till you're gone

See him at the concert  
Snap a pic of him with your fave band  
Thought he was just perfect  
But that just wasn't how life was planned

He could tell you didn't think you were as naïve as you are  
You've been taken as a fool  
But who's to say you thought you'd get this far?

Did you think you'd get this far? (Did you think you'd get this far?)
