

My Idol

Jordana

Feels like I've waited for so long just to meet you
Someone I truly admire
I had the spark but baby you lit the fire
It was too good to be true

Sometimes it hurts to get the thing you desire
What if it's all just a lie?
Cause in my dreams I never pictured me crying
Turns out you were just a guy

You were (you were) My idol (idol, idol)
Shining so bright
But now I see you in a different light
My hero (hero, hero)
Once so right
But now I see you in a different light

Why did I think you were someone to rely on
You're not like you were in my mind
I felt my way through all your cracked imperfections
Now I see that you're not divine

Sometimes it hurts to get the thing you desire
What if it's all just a lie?
Cause in my dreams I never pictured me crying
Turns out you were just a guy

You were (you were) My idol (idol, idol)
Shining so bright
But now I see you in a different light
My hero (hero, hero)
Once so right
But now I see you in a different light
