

Déjà vu

Jordin Sparks

Loving you helps keeps my sanity
Floating on air defying gravity
This is ain't basic, another reason why I chase it
Started off with a convo, blasting off like a spaceship

You and I, do or die
'Cause you're my favorite
When I'm alone, I can't sleep
Because I need you by my side
And you know it's real, no lie

Now I feel like we are floating in space
Look how far we've come, hope this ain't a phase
If this ain't love
I done seen enough
Kinda like every good moment growing up
Kiss me like déjà vu (Déjà vu)
Déjà vu in love
And I know you're on my mind
'Cause your love feel like every good time
Déjà vu

You help me keep up my balance
Ain't trying to say much
But I get butterflies when were laid up (Oh no)
Cause you keep me energized even when you don't try
(No oh)

And we might not be perfect
Who on earth is?
But I know it's worth it
That's all I need to know right now, right now (Right now)
'Cause I need you for my whole life
(Baby, ooh)

Now I feel like we are floating in space (No)
Look how we've come, hope this ain't a phase
If this ain't love
I done seen enough (Enough)
Kinda like every good moment growing up
Kiss me like déjà vu (Déjà vu)
Déjà vu (Déjà vu) in love
And I know you're on my mind (My mind)
'Cause your love feel like every good time
Déjà vu

Déjà, déjà vu (Déjà vu)
Déjà, déjà vu (Déjà vu)
Déjà, déjà vu (Déjà vu)
Déjà, déjà vu

Now I feel like we are floating in space
Look how we've come, hope this ain't a phase
If this ain't love
I done seen enough
Kinda like every good moment growing up
Kiss me like déjà vu (Déjà vu)

Déjà vu in love
And I know you're on my mind
'Cause your love feel like every good time
Déjà vu
