

Fight of Our Life

Jordin Sparks

Mm

Remember when time was a friend?
It moved too fast, though it would last
You know how God laughs
And why can't we just decide?
Lord knows we try to see eye-to-eye
But we just fight

So can you just fight for us?
When the world is up in flames
I just wanna see your face
So fight, fight for our lives
Don't matter who's right, ain't about sides tonight
It's the fight of our lives

They say don't let it pass you by
But it can flash before your eyes
Like the day we met, it took away my breath
It still feels like a dream
But it's just a memory
So close, I can feel it
I just really need ya

So can you just fight for us?
When the world is up in flames
I just wanna see your face
So can you just fight for our lives?
Don't matter who's right, ain't about sides tonight
It's the fight of our lives

Beauty surrounds ya
So glad that I found ya
And I know we got to

So fight, fight for us
When the world is up in flames
I just wanna see your face
Oh, fight, fight for us
Don't matter who's right, ain't about sides tonight
It's the fight of our lives
