

# Heart of Snow

Jordin Sparks

Oh, whoa mmm

There's something in the air tonight  
In how your eyes reflect these Christmas lights  
Do you have something on your mind?  
Cause I know this ain't ribbons and tinsels  
We haven't been so stressed out  
Made us forget what Christmas is all about  
We all got a little Grinch inside  
But baby that don't phase me  
You don't have to change it

Just don't have a heart of snow  
What are you really feeling?  
I just want you here, right here  
Where'd your Christmas spirit go?  
Don't have a heart of snow  
We can fix everything  
But are you even here, right here?  
I just need to know  
Don't have a heart of snow  
Heart of snow  
Heart of snow, mmm

You're talking but you're holding back  
Slow down baby I know you too well for that  
Just look at the presents we have  
Right in this moment we don't have to fight it  
Keeping the light inside of us  
Isn't that what Christmas really is?

Just don't have a heart of snow  
What are you really feeling?  
I just want you here, right here  
Where'd your Christmas spirit go?  
Don't have a heart of snow  
We can fix everything  
But are you even here, right here?  
I just need to know  
Don't have a heart of snow  
Heart of snow  
Heart of snow  
Heart of snow, ooo

Don't have a heart of snow  
Are you even here?  
Oh, oh

Don't have a heart of snow  
What are you really feeling?  
I just want you here, right here  
Where'd your Christmas spirit go?  
Don't have a heart of snow  
We can fix everything  
But are you even here, right here?  
I just need to know  
Don't have a heart of snow

Heart of snow  
Heart of snow, oh, oh, oh, oh no

Don't, don't don't, don't mmm
