

Love is Alive

Jordin Sparks

Hey mmmm

So it was night before Christmas
Gathered around the tree, do you feel the rush?
S'mores on the fire with your love on the side
Santa is on his way, just look up above
It's a beautiful time when you cross my mind
I know that it's Christmas time and love is alive

I found a postcard with your name on it
It said "I love you" and I started to miss you all over
I started to wish you'd come over this Christmas, yeah
These memories are the most beautiful gifts
I wouldn't cross a single one up off my list
Even though it's over, I still dream about you in colors, oh
(Make it clap, hey)

So it was night before Christmas
Gathered around the tree, do you feel the rush?
S'mores on the fire with your love on the side
Santa is on his way, just look up above
It's a beautiful time when you cross my mind
I know that it's Christmas time and love is alive
It's Christmas time
Love is alive

We were sitting by the fireplace
Could've sworn I saw you in the flames
Over the silver bells I called your name
It put a smile on my face
I remember 'cause

So it was night before Christmas
Gathered around the tree, do you feel the rush?
S'mores on the fire with your love on the side
Santa is on his way, just look up above
It's a beautiful time when you cross my mind
I know that it's Christmas time and love is alive
It's Christmas time
Love is
Love is alive
Yes it is
(Can you feel it?)
