

Road To Paradise

Jordin Sparks

Mmmnm
yeah yeah yeah
Handshake
try to keep em steady
won't break
you been getting ready
Here we go
it's time to say goodbye (say goodbye)
Mmmmm
You've got a lot up on your shoulders
Not quite sure just where you're going
But you know it's gone be quite a ride
You know with every twist, turn, crash and burn
that you're gonna reach the other side

You will do things you never dreamed of
You're gonna find a few new friends
Get to explore the worlds of wonder
Where the magic never ends
Time to go out and make your moment
Make a few memories on the way
Life is unfolding it's happening right before your eyes
On the road to paradise
Mmmmm road to paradise
Oh yeah yeah

Inside you feel the fire blazing
Outside you are so amazing
Take a breath and soak in all the sides
Mmmmmmm
Danger and fear are gonna test you
Still you are coming to the rescue
Rain or shine you won't give up the fight
It doesn't matter how long how far
there are miracles along the way

You will do things you never dreamed of
You're gonna find a few new friends
Get to explore the worlds of wonder
Where the magic never ends
Time to go out and make your moment
Make a few memories on the way
Life is unfolding it's happening right before your eyes
On the road to paradise

Might be surprised
by the strength you're gonna find
Inside your heart

You will do things you never dreamed of
You're gonna find a few new friends
Get to explore the worlds of wonder
Where the magic never ends
Time to go out and make your moment
Make a few memories on the way
Life is unfolding it's happening right before your eyes
On the road to paradise

On the road to paradise
Yeahhh
On the road to paradise
