See My Side

Jordin Sparks

I've been trying for days
To think of a way
To find the words to make sense
Of how we behave
This might take a while
So please just hear me out

We know how things can get crazy
When we go ablaze
We just get carried away
Believe me, I know
Don't even say a word
Now please just hear me out

[Chorus]
See my side
And I'll see yours better
Love me back
And I'll love you better

Sometimes the stunts that we pull
Don't even make sense
But I was never the one
To feel that resent
This ain't 'bout who's to blame
So please just hear me out

When the scene gets intense
It's hard to prevent
From going all crazy again
Believe me, I know
Don't even say a word
Now please just hear me out

[Chorus]
See my side
And I'll see yours better
Love me back
And I'll love you better

[Chorus]
See my side
And I'll see yours better
Love me back
And I'll love you better

We'll get right back
On the right track
We'll get right back on
We'll get right back on
On the rgiht track

[Chorus]
See my side
And I'll see yours better
Love me back
And I'll love you better

[Chorus]
See my side
And I'll see yours better
Love me back
And I'll love you better
