

The Wall

I know you like it like this
TLC, lot a passion with a twist
I know you love it like this
Got ya sentimental, I'm your sweet cinnamon

You got me, right where you want me
I'll be your calling
And I, I
Need you to focus
Get lost in the moment
Fiending through the day
Dreaming all night
It's written on your face
I know you can't ignore the vibes

You know you got me, baby, you don't need all them hoes
Then when you coming home I'll be right at the door
You can light the candles, I can lighten the load
Sipping out the bottle, we be doing the most
Black on black, from head to toe
If water's in the river, baby, go with the flow
Switching the positions, everyone high to low
Ooh, let's go

Baby, you turn me on, look what we started
Love it when we get involved
What do we call it?
Hold me like there's no tomorrow
I feel like I'm falling
Put me on the wall
Make me wanna praise the lord
You know how to turn me on

Two steppin' in the dark, now
Two, two steppin' in the dark, now
Two, two steppin' in the dark, now
Two, two steppin' in the dark, now
One foot

Don't lie to my face and lie right next to me boy (On the wall)
Don't tell 'em all our business and spill the recipe, boy
'Cause you been chosen, put it in motion
Open emotions, tell me where you going no

You know you got me baby you don't need all them hoes
When you coming home I'll be right at the door
You can light the candles, I can lighten the load
Sipping out the bottle, we be doing the most
Black on black, from head to toe
If water's in the river baby go with the flow
Switching the positions, everyone high to low
Oh, let's go

Baby, you turn me on, look what we started
Love it when we get involved

What do we call it?
Hold me like there's no tomorrow
I feel like I'm falling
Put me on the wall
Make me wanna praise the lord
You know how to turn me on

Oh, oh
Two steppin' in the dark, now
Two steppin' in the dark, now
Two, two steppin' in the dark, now

Baby, you turn me on, look what we started
Love it when we get involved
What do we call it?
Hold me like there's no tomorrow
I feel like I'm falling
