

Burn

Jorja Smith

Can you take the click off please
Thank you

Little girl doing all she can
You had your eye on only a few things
And maybe it wouldn't go anywhere
Hard to be real with your dreams
No silent movie and no puppet strings
Can't hold you up, you've got to hold yourself, no
Don't mean it's show time for everything
You never listen, no
There she goes, there she goes

You burn like you never burn out
You try so hard, you can still fall down
You keep it all in but you don't let it out
You try so hard, don't you know you've burned out
Let it go in, over my lungs
Fire's always there, no one needs to get hurt
You let yourself burn, you burn yourself out
There she goes, she is falling down

No one could ever even sell her dreams
She put in work for the money that can't buy those dreams
And they'll always be there if you don't make a thing
No one lost, no one's won
You tried your everything

You burn like you never burn out
Try so hard, you can still fall down
You keep it all in, you don't let it all out
You try so hard, don't you know you're burnt out?
Let it go in, over my lungs
The fire's always there, no one needs to get hurt
You let yourself burn, you burn yourself out
There she goes, she is falling down

I hope your daughter comes home
She's worked hard knowing there's always a home
I hope your daughter comes home
She worked real hard knowing there's always a home

Burn
I said burn

You burn like you never burn out
Try so hard, you can still fall down
You keep it all in but you don't let it out
You try so hard, don't you know you're burnt out
You let it go in, over my lungs
The fire's always there, no one needs to get hurt
You let yourself burn, you burn yourself out
There you go, she is falling down, down

Is falling down, down
Down, down
She is falling down, down

Down, down
She is falling down, down, down
There she goes, she is falling down
