

Weekend

Jorja Smith

Song in a
Song in a
Song in a
Song in a

Was I colder when the season changed?
Wish I answered when you knew my name
Could have opened up my door to spring
But now I'm just

I'm running with nowhere to go
I'm raving with the lights on
I'm right here but I've lost control
I'm tearing down the outside
I'm running with nowhere to go
I'm raving with the lights on
I'm hurting but I've got it all
But oh well, I lost all that I found inside of you

I stand out there where it always came alive
Wasting pennies in the night
Waiting up till it was light

Don't work hard just to spend it
Keep your money, it's not only for the weekend
I got a ticket for a place you hadn't been yet
You only went one way and never came back

Don't work hard just to spend it
Keep your money, it's not only for the weekend
You keep me waiting for a minute, I can take that
I was young enough to think that you would come back

Song in a
Song in a
Song in a
Song in a

I trusted but you lied to me
I acted more than I could be
Who would want to hurt me
I'm still here 'cause you're in control

I stand out there where it always came alive
Wasting pennies in the night
Waiting up till it was light

Don't work hard just to spend it
Keep your money, it's not only for the weekend
I got a ticket for a place you hadn't been yet
You only went one way and never came back

Don't work hard just to spend it
Keep your money, it's not only for the weekend
You keep me waiting for a minute, I can take that
I was young enough to think that you would come back

You love it, I don't even want to say something
But you opened up and now I want to try loving
Before you she wasn't try save nothing
Then you opened up and now she want to
Try be a queen
She hasn't seen
Loves entirely
Only 17
Got her locked
Got her lost
Now she's on her knees
Holding onto the softest discrepancies
Seventeen
Heaven's dreams and all they mean

I found my love in a trapped world
You found this light and my last word
You heard this song in a trapped world
Song in a trapped world
Song in a trapped world
Song in a trapped world
Song in a trapped world
Love in a trapped world
Love, better turn it up
Song in a trapped world
Song in a trapped world
Song in a trapped world
Love in a trapped world
Love in a trapped world
Love in a trapped world
Love in a trapped world
