

## Dreamwalker

Jorn

I am a grinder of things I've seen  
I walk the earth  
And bleed inside this death machine  
I am a riser out from the burn  
My wings lift from the ashes  
Black as coal but I still yearn  
A new horizon I must learn

I'll glide away  
Beyond the darkness and the sun  
To shield my lonely fire  
Till my days are done  
My great escape  
Behind the cobwebs of the mind  
The vision that I find  
A world where I'm not blind

Dreamwalker - My only way to go  
Dream stalker - Like a drug I have to know  
Dreamwalker

Here comes the climber up from below  
Above this cloudy mountain rain will never show  
I've known the drama, I've felt the pain  
But I won't let my spirit die, my inner sky remains

Once I had a flower soul  
Till it froze and fell apart  
Now I grow my music  
From the sorrows of the heart  
Still I have dreams in the dark

Old memories they haunt  
Like storms of heavy snow  
I still keep my head up high  
And face the trouble winds that blow  
Soaring home holding on  
I dry my tears and fly  
As I sing my songs for you and I

Dreamwalker - The only way to go  
Dream talker - With horns under my halo
