

# Naked City

Jorn

All the victims have turned to stone, no one is happy,  
they're all alone  
I'd sacrifice my social position tonight  
In New York, millionaires, and lonely people with  
lonely stares  
I'm not lookin' for love and I'm lost in this night  
In the naked city (in the city) there are ten million  
stories (naked city)  
I'm not lookin' for pity (in the city) in this naked city  
(naked city)

Street vampires in the night, young lovers and love at  
first sight  
This is my flesh and my fantasy  
Older women with younger men, I've got a feelin' I'm in  
trouble again  
But I've got to live my destiny

In the naked city (in the city) it's a race with the  
devil (naked city)  
All the pain and the sorrow (in the city) is there no  
tomorrow (naked city)  
In the naked, naked city (in the city) naked city

Lonely people lookin' for someone, lonely people goin'  
their way  
Lonely people lookin' for something, lonely people goin'  
their way

In New York, millionaires, lonely people with lonely  
stares  
I'm not lookin' for love and I'm lost in this night

In the naked city, there are ten million stories  
I'm not lookin' for pity in this naked city  
In the naked, naked city (in the city), it's a race with  
the devil (naked city)  
All the pain and the sorrow (in the city) is there no  
tomorrow (naked city)

(in the city, naked city) (repeats out)
