

Leaf Off / The Cave

José González

Let the life lead you out (8x)

Why can't you take the leaf off your mouth?
Now that you have the facts on your side
Take a moment to reflect where you're from
Let reason guide you,
See old tracks take you out from the dark
See old tracks lead you up to the stars

Why can't you take the leaf off your mouth?
Now that you have the facts on your side
Take a moment to reflect where you're going
Let reason guide you,
See old tracks take you out from the dark
See old tracks lead you up to the stars

Let the life lead you out (12x)

Why can't you take the leaf off your mouth?
Now that you have the facts on your side
Take a moment to reflect who we are
Let reason guide you,
See old tracks lead you out from the dark
Have a life its life, work makes up you and I
What it takes this right, when we need to survive
Yeah we flourish and die, what it means to be alive
What it means to be alive

Let the life lead you out (12x)
