

## Changes (2Pac Remake)

Jose Guapo

Yeah, this shit real

Free my nigga [?]

I don't see no changes  
I wake up in the morning and I ask myself  
"Is life worth living should I blast myself?"  
I'm tired to being poor even worse I'm black  
Stomach hurt some looking for a purse to snatch  
Don't give a fuck about a negro  
Put a trigga killer nigga you a hero  
Know the judge wanna see us in a jail cell  
Take us off the streets and then cut off our welfare  
First they ship the drugs and let us sell it to each other  
Sell us all the guns and then what I watch is kill each other  
I got love for my brother  
Or we can never go nowhere  
Unless we show it one another  
And that's just how it's supposed to be  
The fan shitting is on shitting me  
Fuck all my enemies  
I know G is watching over me

That's just the way it is  
Things can never be the same  
And that's just the way it is  
Things can never be the same  
We don't change or people change  
Things can never be the same  
That's just the way it is  
Things can never be the same

It's war in these streets in our own property  
Because I'm young and I'm black that's why police bother me  
I never did a crime I ain't have to do  
Real facts when you knee you know it's the truth  
You gotta learn how to hold your own  
Be careful what you say when you talk on the phone  
Be careful who you fuck with  
Don't trust shit  
Nigga run up after I bust this  
'Cause it's long guess I'm black I gotta stay strapped  
Watching on my back, can't be laid back  
Take the devil out the paper  
Baby then start acting right  
I had a lot of long nights  
And even though it ain't heaven sent  
We done finally got our president  
And all the jails filled with black people  
Some things never change  
I'm just trying to find another way  
I get high smoke to the face  
Sippin lean hope ease down the pain  
Never be a shame  
Me and my niggas just try to stay dry when it rains  
'Cause when it rains it pours  
No matter how much money I get, I still want more

And these niggas ain't right, don't get caught up  
Trying to live that street life, nigga

That's just the way it is  
Things can never be the same  
And that's just the way it is  
Things can never be the same  
We don't change or people change  
Things can never be the same  
That's just the way it is  
Things can never be the same
