

Baby come and slide right next to me I wanna feel you next to me
There's something I can hold indefinitely A loving soul that's
meant to be And won't we'll take our time unless you think There's
something wrong but where to lead? Exploring in the passion
to the brink To put our souls in ecstasy, oh baby I.. Don't,
want, to, lose, this, feeling, Care to; say im; falling for you

So baby let's be bold and not be afraid Baby this love could set
you free Why won't we take a chance unless you think? There's
something wrong with magic lips, falling in love...
