

I Found A Love

José James

Love
Look what you've done to me
A love
Better than any dream
Oh, I always wanted love without the pain
Oh, I always wanted thunder without rain

I found a love
The kind to hold
The kind that lifts you from the bottom of your soul
The kind that makes
The broken whole
That dizzy perfect out of my control

I found a love
That lifts me up
You see my weaknesses and stay no matter what
And every day I find I'm falling more and more in love with you

I found a love to pull me through

I found a love
The kind to hold
The kind that lifts you from the bottom of your soul
The kind that makes
The broken whole
That dizzy perfect love that's out of my control

I found a love
That lifts me up
You see my weaknesses and stay no matter what
And every day I find I'm falling more and more in love with you
I found a love to lift me up and pull me through
