

## Love

José James

Many dream and many promise Many look for what we knew Many ask  
for something honest Loving hard with someone new And love...  
only thing that's promised to my heart The only thing that's ha  
rd to embrace Only thing that make life worth living Seems love  
is here to stay (bis) I remember the first time Love touched m  
y heart Memory of that day... Delicate touch... Long long skin.  
... Breeze sang softly And I tremble beneath your touch As I tr  
emble... Love escape....

Where is my love? Where can I find your embrace? Peace of mind  
is not promised... (bis)

Second time I found love Won't familiar Blue night and new dawn  
... Something going down... But my friend said... Don't love ag  
ain! Don't you love again! But my heart said You'll love and yo  
u'll always love Love or you'll never Love another Youre addict  
ed to her touch and her warm voice Love and down... Delicate to  
uch... Long long skin.... My heart sang softly and we escape...

Where will love leave me now? I don't wanna hurt again but it F  
eels so good to know... Nothing is promised.... You don't own l  
ove.... You don't own love....

You see that love has the power To take my heart and soul To a  
place of beauty... To a place of love.... To a place of inspira  
tion Only love will gather you Only love will bring you to the  
place of vision The place where you can see it Where you can dr  
eam it Where you can be it all your trouble oh yea Only love

With the sweet touch of love in your heart You can fly Don't sa  
y no to love Love has its wisdom Yes and love only thing that's  
promised in my heart Only thing that's harder to erase Only th  
ing that make life worth living. Seems love is here to stay Lov  
e is here to stay
