

Make It Right

José James

every night + every day
I sit + wonder how it all went wrong

out of sight + out of place
+ everybody know there's somethin'
gone

all my people need a taste
of wonder knowin' what it's all about

+ everytime I open up my voice
gon' let my Spirit work it out

we gon' make it right
we gon' get together

all my Heaven know
we gon' take it high too

human nation gonna know
won't be long before

we gon' make it right ya'll
we gon' make it better

won't be long before
we gon' make it right

hold on stay strong
in your life

whisper in my ear my darlin'
that you'll always be here by my side

I'm gonna tell you what I know
+ that is everlasting love is mine

when you know a love is lasting
you hold on to it with all your might

let it grow into a masterpiece
gon' hold you close + pull you tight
