

Promise in Love

José James

Promise in love then baby gon' take you on a high
Promise in love then baby let's make everything alright
Promise in love then baby we're living for today
Promise in love then baby let's take it all the way

(Yes babe)

I know that you are
The only one for
Me and it's already
There on your face

Something I can do
Nothing I won't lose
Baby you're the only
One for me and I know that

You and I stepping in the club tonight
Pressed so close so close and tight
Feeling like our hearts might explode

Nothing left to prove
Only me and you
Spreading light into the
World is what we plan to do

Promise in love, then baby gon' take you on a high
Promise in love, then baby let's make everything alright
Promise in love, then baby we living for today
Promise in love, then baby let's take it all the way

And now a song
Sweet and gentle like a song
And now we sway
To each other like a prayer
And now tonight
Love and touch you divine
And now we dance
Love has given us this chance

Promise in love then baby gon' take you on a high
Promise in love then baby let's make everything alright
Promise in love then baby we living for today
Promise in love then baby let's take it all the way
