

You Know What It Do

José James

Girl you are my everything
And I'm trying to show you how I feel
Don't be surprised if you should find me on one knee
Just to show you girl that I'm for real

I keep doing bad but what's the use
And when you shake that thing
Come on and shake that thing girl

You know what it do
(Don't let it stop)
You know what it do
(Lick the cream on top)
You know what it do
(Everyday and night)
You know what it do
(Girl you make everything alright)

You know what it do
You know what it do
You know what it do
You know what it do

Tell your mama and all your friends
There's a change of weather coming round
I get so high everytime I see you babe
And I don't wanna come back down

I keep doing bad but what's the use
And when you shake that thing
Go on and shake that thing girl

You know what it do
(Don't let it stop)
You know what it do
(Lick the cream on top)
You know what it do
(Everyday and night)
You know what it do
(Girl you make everything alright)

You know what it do
You know what it do
You know what it do
You know what it do
