

human

Josef Salvat

You are the mess that I am making now
You are the hole that I am falling down
You are the risk that I am taking now
You are the rule that I will break somehow

Who are you to underestimate me like you do?
Who are you? Who are you?

Oh, still I come running every time you call
Cause I am only human, nothing more

I am the joke you always tell the crowd
I am the fool you use to make you proud
I am the thoughts you never speak aloud
I am as naked as you want me now

Who are you to underestimate me like you do?
Who are you? Who are you?

Oh, still I come running every time you call
Each time forgetting what you did before, ooh
It's like you've trapped me like an animal
But I am only human, nothing more

I am a cheetah that you haunted down
I am a tower once so tall and proud
I am precious metal that was never found
I am a planet in its final hour

Who are you to underestimate me like you do?
Who are you? Who are you?

Oh, still I come running every time you call
Each time forgetting what you did before, ooh
It's like you've trapped me like an animal
Yeah, I am only human, nothing more
