

I'm Sorry

Josef Salvat

Staring at the water
Trying to remember
How it felt to need you
I do my best to rewind
Back to another time
To how it felt to hold you

I know I get in a spin
Maybe I've been asking too much of you
Staring at the water
Wishing we'd fought harder

I'm sorry for failing
Sorry for making such a mess of things
God, where do I begin?
I'm sorry for failing
Sorry for breaking all my promises
How did it come to this?

Weak at the knees
Nah I could barely breathe
That's how it felt to need you
A thousand constellations
A planet to myself
That's how it felt to hold you

Sometimes I get in a spin
I know I've been asking too much of you
Standing at the water
Wishing I'd fought harder

I'm sorry for failing
Sorry for making such a mess of things
God, where do I begin?
I'm sorry for failing
Sorry for breaking all my promises
How did we come to this?

Another end plays out
Another thing I've broken
This is all I've got left now
Just a chance to leave you knowing

I'm sorry for failing
Sorry for making such a mess of things
God, where do I begin?
I'm sorry for failing
Sorry for breaking all my promises
How did we come to this?

I'm sorry for failing
Sorry for making such a mess of things
God, where do I begin?
I'm sorry for failing
Sorry for breaking all my promises
How did we come to this?
