Promiscuity

Sleeping with all the girls and all the boys
And all the girls and all the boys
And between it all, a little rise, a little fall
A lot of white noise

You've been working for the money
Working hard
Now you wanna live a little bit
Just start
Whether it's the beach or
At the bar
Pleasure don't care where you are

When there's nothing to do 'cause the whole world is screwed
You just gotta let go
Whether you're 18 or 80, it's never too late
Just give it a go

Promiscuity
No judgement from me
Just pleasure, baby
No pressure
I promise, baby
Let love set you free
Just pleasure, baby
And no pressure
Promiscuity

Getting dumber by the day, but it's okay
'Cause my brain never worked for me anyway, no
They tell ya life's so perfect nowadays
But inside I'm bored in a million ways, go

You've been working for the money
Working hard
Now you wanna live a little bit
Just start
Whether you're a DJ
Or a nun
Pleasure don't care where you're from

When there's nothing to do 'cause the whole world is screwed
You just gotta let go
Whether you're 18 or 80, it's never too late
Just give it a go

Promiscuity
No judgement from me
Just pleasure, baby
No pressure
I promise, baby
Let love set you free
Just pleasure, baby
And no pressure
