Cocaine Feet

Joseph Arthur

You can feel
Numb in your bones
You and I live
Without anyone

Cocaine feet
Wrecked cities in the dark
Another dirty street
Where you don't belong

Don't you ever put me down on the white line
No matter what I put you through
Don't you ever put me down on the white line
No matter what I put you through
No matter what I put you through

Your brown head
Has too many thoughts
Your brown bed
Has too many spots

Where have you been
And who have you been with
Who did you kill
And who did you kiss

Don't you ever put me down on the white line
No matter what I put you through
Don't you ever put me down on the white line
No matter what I put you through
No matter what I put you through

Don't you ever put me down on the white line
No matter what I put you through
Don't you ever put me down on the white line
No matter what I put you through
Don't you ever put me down on the white line
No matter what I put you through
No matter what I put you through
No matter what I put you through
No matter what I put you through
