

# Electrical Storm

Joseph Arthur

How do you live cold  
Before you're young  
You're so old

You're born and then you die  
You're born and then you die  
And you are born

Past the city and the thieves  
Past the wolverines and trees  
Until the sunrise  
In the electrical storm

Last night with you  
When we turned blue  
I saw right through  
When we turned blue

I can see you now  
You are me  
Anyhow

You're born and then you die  
You're born and then you die  
And you are born

Past the city and the thieves  
Past the wolverines and trees  
Until the sunrise  
In the electrical storm

In the sunrise  
In the sunrise  
And we are born  
In the electrical storm

In the sunrise  
In the sunrise  
And we are born  
In the electrical storm

Last night with you  
When we turned blue  
Were you untrue  
When we turned blue  
When we turned blue
