

Good Life

Joseph Arthur

There is a ghost in each of us
Before we're ever born
There is a ghost in each of us
And all must learn mourn
Muhammad Ali
He said what's on his mind
Muhammad Ali
Could change the course of time
There is a ghost in each of us
Before we hit the grave
There is a ghost in each of us
A ghost we each must save
Muhammad Ali
Spoke in poetry
Muhammad Ali
Gave all to you and me
There is a ghost in all of us
Who runs when we're asleep
There is a ghost in all of us
A diamond you can't keep

Sometimes I want to take you home
Sometimes, sometimes I want to be alone
To wake up from the good life
To fix up from the dull night

Sometimes I want to take you home
Sometimes, sometimes I want to be alone
To wake up from the good life
To fix up from the dull night

To wake up from the good life
To fix up from the dull night

Oh, let's go
You
Let's go
Rock
And roll

To wake up from the good life
To fix up from the dull night
To wake up from the good life
To fix up from the dull night
