

I've been watching you
I liked you right away
Cause you looked like you
Might have something to say
That I would want to hear
Like you looked at me
And liked me right away

You're easy for me
To bleed on
I said you're easy for me
To bleed on

Well I'll follow you
Anywhere you wanna go
Cause you look like you
Might already know
A place we can be that feels better
Than the hole I have inside of me

You're easy for me
To bleed on
I said you're easy for me
To bleed on

You're easy for me
To bleed on
I said you're easy for me
To bleed on

You're easy for me
To bleed on
I said you're easy for me
To bleed on

You're easy for me
To bleed on
I said you're easy for me
To bleed on
