

## This Feeling

Joseph Black

Ion think I love you like I once did, like I once did  
I gave you all of my love you barely touched it  
I got attached to your soul I think we rushed it  
I can't run back to you no I cannot trust it  
And I know this feeling don't go away  
So I isolate myself put the world away  
I know this feeling don't go away  
No oh oh, no oh oh

Ay ay ay, got me feeling like  
I just ain't feeling right  
She wanna chill tonight  
I might just kill it quick  
But I won't spend the night  
Or I might kill this bitch  
Or I'ma chill tonight  
(Ay) when you fall out of love you get a cold heart  
When you ball out the mud that's when them hoes start  
Ay don't follow me lead my road is so dark  
And love always fall apart

Ion think I love you like I once did, like I once did  
I gave you all of my love you barely touched it  
I got attached to your soul I think we rushed it  
I can't run back to you no I cannot trust it  
And I know this feeling don't go away  
So I isolate myself put the world away  
I know this feeling don't go away  
No oh oh, no oh oh

Walked in thought I could surprise  
When I walked in hold my eyes hold my eyes  
Ay I shouldn't've been surprised she was lay'n with one my guys  
I got one in the head in the chamber he should die  
But I'm tryna keep my cool  
Hold my shit together oh no  
But it's been a long year and plus the weather is cold  
I'm sick of holdin' back my tears ain't been letting me go  
I sick of being full of fear I know I'm better than most

Ion think I love you like I once did, like I once did  
I gave you all of my love you barely touched it  
I got attached to your soul I think we rushed it  
I can't run back to you no I cannot trust it  
And I know this feeling don't go away  
So I isolate myself put the world away  
I know this feeling don't go away  
No oh oh, no oh oh
