

when i fall in love

Joseph Black

Wish somebody would tell me I'm wrong when I fall in love
Reassure me I fucked all it up
Wish somebody would tell me I'm wrong when I fall in love
You can tell me I fucked all it up
Ay, Ay
Someday we both know I'll change my mind
It's just too much difference in our time zones
Difference in our time zones

Fuck it, I'll fly out of state for you
I'll fuck off this cash in the bank for you
But as soon as it's time that we take it forward
I don't feel so special 'cause they know you
I get upset 'cause they know you
I know I'm second or more
I ain't gon' sit here no more
And be upset and annoyed, I know

Abandonment, and damages
Paint all these stories in my head
Fuck up my canvases
I'm so indecisive, manic-ness
I think that I like you, damn it, bitch
I talk myself out of it, know I should
But you was the perfect candidate

Should walk out this situation for the good
I should just call you and end the shit
I smoke all my feelings in these woods
I got to just slow down, I'm panicking
Cause inside, I can't help how I feel
I can't describe how it feels when I lay here awake
And I'm restless and I can't sit still because I

Wish somebody would tell me I'm wrong when I fall in love
Reassure me I fucked all it up
Wish somebody would tell me I'm wrong when I fall in love
You can tell me I fucked all it up
Ay, Ay
Someday we both know I'll change my mind
It's just too much difference in our time zones
Difference in our time zones

Wish somebody would tell me I'm wrong when I fall in love
You can tell me I fucked all it up
