

# Float

Joseph Vincent

Get up, my nerves are pumpin', my hands are shakin'  
Wonderin' what's going on and I can't explain it, no  
It's taken all these years and I can't believe that it's happenin' no  
w  
You'll know once the sun comes out

Mahal kita, it's been that way since forever  
And you've been so patient with me, I will do better  
Trust in the moment soon you'll know, never settle for less  
Baby you the best, on my knee just please say yes

We'll float away to somethin' better, believe me honey  
Save me, baby let me be your only lover and we'll  
Go on and take it higher  
If I can make you mine  
Let gravity dissipate and maybe we can float away

Float away to the sky, you and I...

Take in the sights you'll see that the view's amazin'  
Just me and you above the world ain't no one complaining  
Everything's got more color when I'm with you  
'Ole brown eyes making the sky so blue yeah

We cruisin' the valley, 3000 feet up in Cali  
Just drinkin' wine and momosas, as we gazin' down the coast  
See the sun is rising up and it's time to confess, so  
Baby you the best, on my knee just please say yes

We'll float away to somethin' better, believe me honey  
Save me, baby let me be your only lover and we'll  
Go on and take it higher  
If I can make you mine  
Let gravity dissipate and maybe we can float away

Goin' up to the sky in a basket  
Ain't no care in the world, we relaxin'  
An adventure, we flying  
There ain't no better timing

Goin' up to the sky in a basket  
Ain't no care in the world, we relaxin'  
An adventure, we soarin'  
With you I'm always floatin'

Goin' up to the sky  
With you I'm always floatin'  
I'll give you my love  
With you I'm always floatin'
