

Lemons

Joseph Vincent

La lala lala lala
Yeah

They always said respect is earned out back
If you take it or you leave it
It don't matter cause you only got
One shot to make a move on through
Stop waiting around or wasting time
On what to do

Won't always get your way
You know who's got your back
Yeah maybe only you
But that's all you need and back

It's constantly in change
If life hands you lemons then
You should make some lemonade
Control the way your stories play

Oh I've seen some better days
This one's for the books
I'mma take it as it is
Never give a second look
No I won't ever let
Anything block my way
'Cause I'mma take those lemons
And make some lemonade

Oh
Seen some better days

Its time to jump ship
No I can let it sink
I'm the captain
God is stayin' board
No matter what you think
I'mma steer it through
Calm before the storm
Now the waves are crashing
Never panic, time to soar

Just gotta focus on now
Yeah I'm breaking on through
With the lies all around me
I just gotta find the truth
It was never 'bout me
'Cause I did it all for you
I gotta take advantage
Of whatever happens now
Gotta keep it real
What the data shows
If love ain't the product
I don't ever wanna go

Constantly in change
If life hands you lemons then

You should make some lemonade
Control the way your stories play

'Cause I've seen some better days
This one's for the books
I'mma take it as it is
Never give a second look
No I won't ever let
Anything block my way
'Cause I'mma take those lemons
And make some

I can't control whatever comes my way
But I'm always coming loud
Can't shut me down
No

I need some better days
This one's for the books
I'mma take it as it is
Never give a second look
And no I won't ever let
Anything block my way
'Cause I'mma take those lemons
And make some lemonade

Oh
Seen some better days
