

# Lighthouse

Joseph Vincent

Don't know where to go, nowhere to stay  
Haven't figured out a destination anyway  
Anyway, anyway, anyway  
But I know, oh I know, I can always count on you  
Gotta find out where we need to be  
Drifting off like I'm out at sea  
Everything is blue, remind me what to do  
To make it home to you

Take a chance, don't let it all  
Slip away, memories live in you, they live in me  
Life ain't easy, love can take  
Your breath away the moment you find your place  
Oh I need you more than ever

You're my lighthouse, it's you I rely on  
My lighthouse, getting me through the storm  
And I hope that I could light you too  
Because I know our love will take us through  
Oh, you're my lighthouse, it's you I rely on  
My lighthouse, getting me through the storm  
And if there's one thing I know is true  
I won't find my way back without you

Don't know where to go, nowhere to be  
All we got is time and time is all we got  
To live another dream  
Oh, I need some change and your love won't make it so  
Make it so, make it so original  
Take a road, never known, unpredictable  
I know what to do, gotta make a move  
And build a home with you

Take a chance, don't let it all  
Slip away, memories live in you, they live in me  
Life ain't easy, love can take  
Your breath away the moment you find your place  
Oh I need you more than ever

You're my lighthouse, it's you I rely on  
My lighthouse, getting me through the storm  
And I hope that I could light you too  
Because I know our love will take us through  
Oh, you're my lighthouse, it's you I rely on  
My lighthouse, getting me through the storm  
And if there's one thing I know is true  
I won't find my way back without you
