

# Make My World

Joseph Vincent

Oh there's nothing that I wouldn't do  
I'd make time turn back to when you  
You were the only one who would prove  
That love could be true

Now the stars all align  
The night sky comes alive with your love

Make my world go round  
Even when it all breaks down  
Your stars make my dreams come true  
And it clears the sky for me and you  
Oh you make my world complete again

Oh I never dreamed that we'd be  
In this place oh a world of our own  
And if only you could believe  
That every time I look at you I get weak  
You made me feel peace  
Inside of my soul

And now the stars all align  
The night sky comes alive with your love

Make my world go round  
Even when it all breaks down  
Your stars make my dreams come true  
And it clears the sky for me and you  
Oh you make my world complete again  
Oh again  
You make my world complete again
