

Fighter

Joseph

We could just carry on
Act like nothing's wrong
Don't leave me in the dark
Don't leave me in the dark
I've gotten used to the mess
Got used to shallow breaths
Don't leave me in the dark
Don't leave me in the dark

You think you're keeping the peace
While you creep, creep away from me
You think you're keeping the peace
Don't keep yourself from me

Wide eyes, eyes white
I want a fighter
Don't lie this time
I need a fighter
You're my bright side
I want it brighter
Don't leave me in the dark
Don't leave me in the dark

You've got it all figured out
Think you can carry it all
I'm carrying the spark
I'm carrying the spark

You think you're keeping the peace
While you creep, creep away from me
You think you're keeping the peace
Don't keep yourself from me

Wide eyes, eyes white
I want a fighter
Don't lie this time
I need a fighter
You're my bright side
I want it brighter
Don't leave me in the dark
Don't leave me in the dark

Give me something
Just a little something
Give me something
Baby quit your running
Give me something
Just a little something
Give me something
Baby quit your running

Wide eyes, eyes white
I want a fighter
Don't lie this time
I need a fighter
You're my bright side
I want it brighter

Don't leave me in the dark
Don't leave me in the dark

I want a fighter
I need a fighter
Don't leave me in the dark
Don't leave me in the dark

Don't leave me in the dark
Don't leave me in the dark
