

Dancing on New Year's Eve
We're all here at the party
I wish somebody would pour me a drink
That I'll spill, make a mess of my dress

It's just another night
Dressed up in glitter such a pretty picture
It's just another night
Happy and sad
Is it too much to ask for just one or the other?

I don't really feel a whole year older now
I'm still shaking but I'm bolder now
I need you to hold me even closer now
I know we'll make it another year
But I don't know how

Familiar arms around my waste
The disco ball makes stars on your face
We're making something good out of pain
You and me and the rest of this mess

It's just another night
Dressed up in glitter such a pretty picture
It's just another night
Happy and sad
Is it too much to ask for just one or the other?

I don't really feel a whole year older now
I'm still shaking but I'm bolder now
I need you to hold me even closer now
I know we'll make it another year
But I don't know how
