Side Effects

Joseph

First cup of coffee after a long night
First kiss after a bitter fight
First time we see each other after too much time
Something's gone but we're still here and it's alright

If this is a drug keep me prescribed
These are the side effects I want for life

You make me feel like heaven needs to take it's time
I don't wanna move
I don't wanna move

First note you played on that midnight piano
Our voices raised, holding the stars in place
The first mile on the first road where we let go
First time we let our hearts race

If this is a drug keep me prescribed
These are the side effects I want for life

You make me feel like heaven needs to take it's time
I don't wanna move
I don't wanna move

I know this moment is following the last one out
Can't seem to hold it down
But I hope it stays around
I don't wanna move

You make me feel like heaven needs to take it's time
I don't wanna move
I don't wanna move
I don't wanna move
