

# Whirlwind

Joseph

Whirlwind  
Let me breathe you in

Whirlwind  
This is where you start to pull me in  
I hear a voice that is whispering  
In the whirlwind

Let it be  
Let your thunder roll over me  
You're not safe and I'm shaking  
What are you, whirlwind?

Whirlwind  
Let me breathe you in

Bright lights  
Split the sky as I close my eyes  
I feel the breath of a thousand lives  
In the whirlwind

Dark skies  
I look around, can't see through the night  
Invisible foes  
Are hard to fight

Whirlwind  
Let me breathe you in

Have you held the mallots drumming thunder  
Or filled the clouds with rain?  
Have you opened up the skies above you  
And seen a desert wake?  
Have you given orders to the morning  
Or shown the dawn its place?  
Can you grab hold of the earth's four corners  
And shake shake shake out the darkness

Whirlwind  
Let me breathe you in
