Settle Me Down

Josh Abbott Band

What good's a highway without a destination?
What good's a house without someone to come home to?
What's a night at the top of the world without you there beside
 me?
No, there ain't no good in it without you

You settle me down when I go too far, when I burn too fast, whe
n I lose my way
Hold onto me, whisper to my soul, put my heart at ease when I'm
 'bout to break
Always got the wind at my back, but you still love me when I li
ve like that
Open my eyes, keep me around, pull me back in, and settle me do
wn
Settle me down

Still got the tendency to lean over the edges
I still got the urge to chase the dream until it ends
You don't fence me in, yeah, you understand
But when I can't remember, you remind me who I am

You settle me down when I go too far, when I burn too fast, whe
n I lose my way
Hold onto me, whisper to my soul, put my heart at ease when I'm
 'bout to break
Always got the wind at my back, but you still love me when I li
ve like that
Open my eyes, keep me around, pull me back in, and settle me do
wn

Always got the wind at my back, but you still love me when I li
ve like that
Open my eyes, keep me around, pull me back in, and settle me do
wn
Follow me, I need you right now, cover me up, and settle me dow
n
Settle me down
