

## Don't Be Afraid

Josh Garrels

Don't be afraid to try your hardest  
Carry the weight and rise when you fall down  
The weight won't break your soul  
But make you strong and able to hold  
All the good things  
Yet to come

Don't be ashamed of what they say about you  
Time will reveal your work was good and true  
The weight won't break your soul  
But make you strong and able to hold  
The love of God  
And all the glory from above  
And all the good things  
Yet to come
