

# I Don't Want To Live

Josh Gracin

I know you said when I left, I'd regret every word  
Every breathe, every step, every minute without you, go do what  
you have to

I know I said you were wrong I'd move on  
It was only a matter of time till I'd make it without you but th  
is wasn't about you  
I said I needed space, a change of place to go out and live my  
life

I don't wanna live without you anymore  
And what I wouldn't give to get us back to the way it was befor  
e  
I admit I was wrong all along, now you're gone with all that I'd  
been living for  
I don't wanna live without you anymore

For a couple of nights I was fine, I was high off the wine and  
the lights  
And my new found freedom that I thought I needed  
But that cold lonely room that I headed home to, it felt like a  
tomb  
I just stared at the ceiling, what an empty feeling and, baby,  
I apologize  
And tell me its not too late

I don't wanna live without you anymore  
And what I wouldn't give to get us back to the way it was befor  
e  
I admit I was wrong all along, now you're gone with all that I'd  
been living for  
I don't wanna live without you anymore

I don't wanna live without you anymore  
And what I wouldn't give to get us back to the way it was befor  
e  
I admit I was wrong all along, now you're gone with all that I'd  
been living for  
I don't wanna live without you anymore  
No, I don't wanna live without you anymore
