

Me, a Girl and a Radio

Josh Gracin

Sky full of stars
Gas in the car
Sun shinin' in the shotgun seat
Me and the FM
She got us dialed in
Pacific City I was seventeen

With the top down, turn it on, turn it up
Hey a little summer night symphony
And when the DJ lit up the airwaves
We were dancing, baby one-two-three

Out here in the country
Don't need nothing
But me, and a girl, and a radio
No it ain't complicated
It's what we make it
Me and a girl and a radio
Takin' it fast
Takin' it slow
Takin' it anywhere we want it to go
Out here in the country
Don't need nothing
But me, and a girl, and a radio

Well I've got one life
And it feels right
With you standing next to me
And all we've been through
It's always been you
Thick and thin since seventeen

With the top down, turn it on, turn it up
Hey a little summer night symphony
And when the DJ lit up the airwaves
We were dancing, baby one-two-three

Out here in the country
Don't need nothing
But me, and a girl, and a radio
No it ain't complicated
It's what we make it
Me and a girl and a radio
Takin' it fast
Takin' it slow
Takin' it anywhere we want it to go
Out here in the country
Don't need nothing
But me, and a girl, and a radio

Well a boy don't need no more than this
Than a single-a-long song and an all night kiss
A boy don't need no more than this
Than a single-a-long song and an all night kiss

Out here in the country
Don't need nothing

But me, and a girl, and a radio
No it ain't complicated
It's what we make it
Me and a girl and a radio
Takin' it fast
Takin' it slow
Takin' it anywhere we want it to go
Out here in the country
Don't need nothing
But me, and a girl, and a radio

Oh oh radio

A boy don't need anymore than this
Than a girl, a girl, and a radio
