

# Mi Morena

Josh Groban

And so my love  
From my window I can see  
A beautiful vision  
And when the music plays  
Your body rises like a bird of grace

Mi morena  
I saw you dancing in the rain  
Holy water  
Shining like a silver flame  
Come like a ghost  
I will watch you dance alone  
Mi morena  
You're the light within my soul

And so my love  
The way you're moving in your dress  
To a nylon guitar  
On wings of silk and lace  
You lift upon the notes and slip away

Mi morena  
I saw you dancing in the rain  
Holy water  
Shining like a silver flame  
Come like a ghost  
I will watch you dance alone  
Mi morena  
You're the light within my soul

Take this cross of feathers and bone  
Take this heart I've carved in stone  
In your name

Where the setting sun surrenders to the moon  
Mi querida  
I wait for you

Mi morena  
I saw you dancing in the rain  
Holy water  
Shining like a silver flame  
Come like a ghost  
I will watch you dance alone  
Mi morena  
You're the light within my soul

Mi morena  
Hold your hands out to the night  
Be my lover  
I will fall into your eyes  
Sweet fire of love  
For you I'd steal the stars  
'Cause I adore you  
O my morena
