

# Won't Look Back

Josh Groban

Tongue tied and falling  
So far from the ground  
That's what you do to me  
And to you I'm bound  
My heart was restless  
And I traveled alone  
But you make each place I go  
Feel like home

And I wanna be there, wherever you lead me  
For better or worse, for the rest of my life

It won't ever rain on us  
It won't ever get too rough  
You know I can't promise you that  
But I promise I won't look back  
Nothing but happy days  
And nothing will ever change  
You know I can't promise you that  
But I promise I won't look back

Won't look, won't look, won't look back  
Won't look, won't look, won't look back

There's nothing I'm leaving  
Can turn me around  
You gave me direction  
When it could not be found  
After all the mistakes now  
And all our regrets  
Knowing the days left to come  
Are the best yet

And I wanna be there, wherever you lead me  
For better or worse, for the rest of my life

It won't ever rain on us  
It won't ever get too rough  
You know I can't promise you that  
But I promise I won't look back  
Nothing but happy days  
And nothing will ever change  
You know I can't promise you that  
But I promise I won't look back

Won't look, won't look, won't look back  
Won't look, won't look, won't look back  
Won't look, won't look, won't look back  
Won't look, won't look, won't look back
