

Body Talk

Josh Kelley

Let go, let go
And let your body talk
Let's go, let's go
And let your hair come down
Let go
Let the loving turn you inside out

When you walked in it put me in a cold sweat
You lit the room up with your diamonds and your red dress
Killing everybody looking like Marilyn Monroe
From head to toe
I moved in slower said bet you could use a drink
Bartender shake up a martini for my lady
DJ keep the groove a pumping 4 on the floor
Give me more

Let go, let go
And let your body talk
Let's go, let's go
And let your hair come down
Let go
Let the loving turn you inside out
(Inside out, side out, yeah)

Let go, let go
And let your body talk
Let's go, let's go
And let your hair come down
Let go
Let the loving turn you inside out
(Inside out, side out, yeah)

I'm in love with the girl who's loving to get down
Everybody hears wishing that they could spin you round

Ever since you came I been confident
You're the consequence, yeah
And my cup is overrunning I'm an optimist
And with you I'ma get lost in this
And for you I'ma take charge in it
Perspiration
Hard work
Deep breaths
Respiration
Body talk a lotta conversation
Mouth to mouth resuscitation
Way before the language really ancient
Way you moving your hips got Information
Speaking in tongues and face annihilation
Peaceful making the love to take you places
White dress Nikes on
Keep them lights on
Only one I want
Go ahead why not we gon make the time stop, come on

Let go, let go
And let your body talk

Let's go, let's go
And let your hair come down
Let go
Let the loving turn you inside out
(Inside out, side out, yeah)
Let go, let go
And let your body talk
Let's go, let's go
And let your hair come down
Let go
Let the loving turn you inside out
(Inside out, side out, yeah)

Let go, let go
And let your body talk
Let's go, let's go
And let your hair come down
Let go
Let the loving turn you inside out
(Inside out, side out, yeah)
Let go, let go
And let your body talk
Let's go, let's go
And let your hair come down
Let go
Let the loving turn you inside out
(Inside out, side out, yeah)
