

# From Here

Josh Kelley

Somehow we managed  
To make this small town even smaller  
Oh to keep it a secret  
But then again why bother  
It's just a matter of time  
Before everybody round here knows that you're not mine

And I wonder  
Where do we go from here  
Stuck in the gray, nothing left to say so now I wonder  
Where do we go from here  
Where do we go from here  
Where do we go from here, baby? Tell me  
Oooo where do we go from here  
Stuck in the gray, nothing left to say so now I wonder, I wonder  
Oooo where do we go from here  
Where do we go from here, from here

Good luck going anywhere on Friday night  
With anybody, anybody new there by your side  
What's worse, never seeing each other again  
Or out the blue running into you, and falling right back in again

And I wonder  
Where do we go from here  
Stuck in the gray, nothing left to say so now I wonder, I wonder  
Where do we go from here  
Where do we go from here, from here, from here  
Where do we go from here, baby? Tell me  
Oooo where do we go from here  
Stuck in the gray, nothing left to say so now I wonder  
Oooo where do we go from here  
Where do we go from here  
Where do we go from here, baby? Tell me

And I wonder, I wonder  
Where do we go from here  
Stuck in the gray, nothing left to say so now I wonder, I wonder  
Where do we go from here  
Where do we go from here  
Where do we go from here, baby? Tell me  
Oooo where do we go from here  
Stuck in the gray, nothing left to say so now I wonder, I wonder  
Oooo where do we go from here  
Where do we go from here  
Where do we go from here, baby? Tell me
