My, oh my, how long it's been
You look just like you did back then
All we need is a sunset, Springsteen and an old Chevette
We're right back on that riverbank
Down a long dirt road on an empty tank
First love, first anything
That moon saw everything
Does it take you back
Say baby, does it make you think

Is that a good memory or a great idea Do we just reminisce or get outta here Back to when you called me baby Slow and softly in my ear Is that a good memory or a great idea Is that a great idea

I can see your bedroom windwo now
Easin' up and you sneakin' out
Scared to death of your old man
If he'd a caught us, we'd both be dead
It ain't no doubt you looked real fine
As I recall, you weren't real shy
Tank-top and cut-off jeans
You knew how to get to me
Does it take you back
Tell me baby, does it make you think

Is that a good memory or a great idea
Do we just reminisce or get outta here
Back to when you called me baby
Slow and softly in my ear
Is that a good memory or a great idea
Is that a great idea

First anything, first everything

Is that a good memory or a great idea
Do we just reminisce or get outta here
Back to when you called me baby
Slow and softly in my ear
Is that a good memory or a great idea
Is that a great idea

Do we just reminisce or get outta here Back to when you called me baby Slow and softly in my ear Is that a good memory or a great idea Is that a good memory or a great idea

It's a great idea
Come on, take my hand little baby
It's a great idea
